

Prescribing Incentive scheme North Norfolk CCG 2019/20

Part A

Savings targets to be discussed during the annual prescribing visit and agreed with the practice.

There will be 3-4 targeted projects.

Project areas will be agreed during the meeting or notified to the medicines management team asap following the meeting

Part B

The practice will complete the following:

- Polypharmacy reviews in Type 2 Diabetes (focus on newer oral hypoglycaemics / frail elderly hypo risk). Numbers 3/1000 registered patients
- Review of patients with COPD triple therapy or review of high dose ICS in asthma patients. Representative sample minimum 20 patients
- Complete an antibiotic audit from the Target toolkit

Payment

80p per registered patient, 40p if savings are achieved and 40p for the clinical reviews/audits
